EXPORT & IMPORT

MERSITRA CITRUS

Citrus

Fruit

HONEST TRADE LASTING SUCCESS

With 15 years of industry experience, our company was established in June 2024 in Mersin and operates in the export of fresh vegetables, fruits, and citrus products. With a commitment to quality, reliability, and continuity, we aim to deliver the freshest products grown in the fertile lands of Türkiye to our international customers under the healthiest conditions.

Thanks to our strong network of producers, cold chain logistics infrastructure, and customer-oriented approach, we export to many countries, primarily in Europe, Belarus, Russia, Ukraine, and the Middle East.

Our goal is to build long-term business partnerships with our natural, high-quality, and trustworthy products and to promote the strength of Turkish agriculture to the world

WE CARRY THE FRESHNESS OF NATURE TO ALL AROUND THE WORLD

Mersitra Citrus follows the entire process very carefully, from the collection of the harvest in the gardens to cleaning, sorting, packaging, storage in refrigerated warehouses and delivery of the products to our customers. This makes it easier to deliver your products

Fresh Fruit

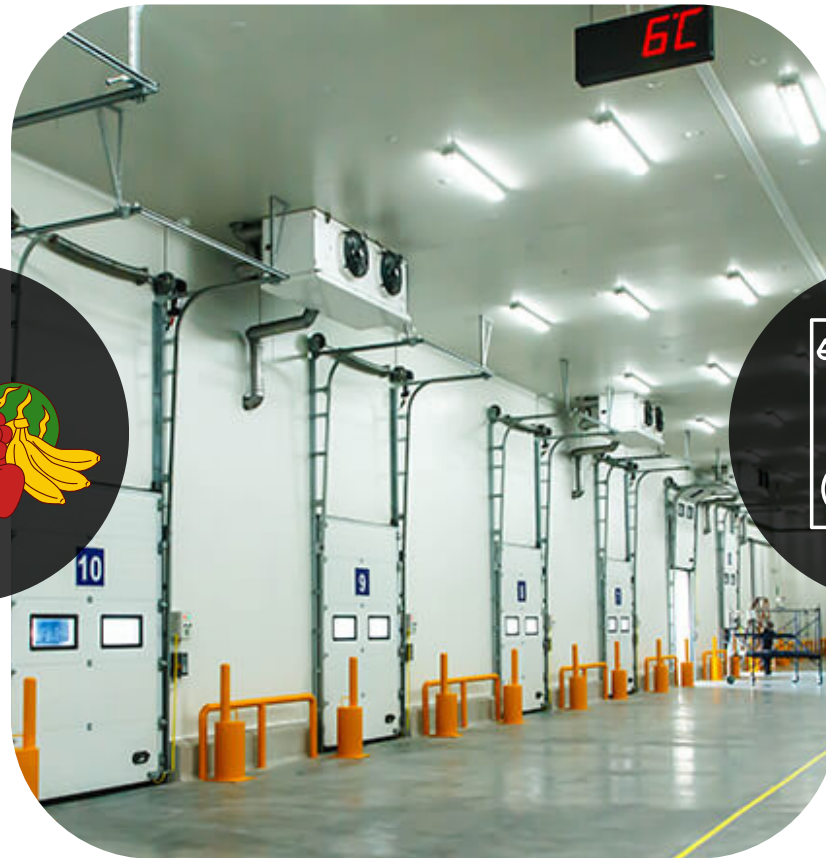

OUR FRESH FRUIT AND VEGETABLE EXPORT PROCESS

Product Selection, Classification and Packaging

Harvested products are carefully sorted according to their quality, size and freshness. Then, they are packaged in packaging that complies with international standards. In this way, our products are safe and maintain their freshness

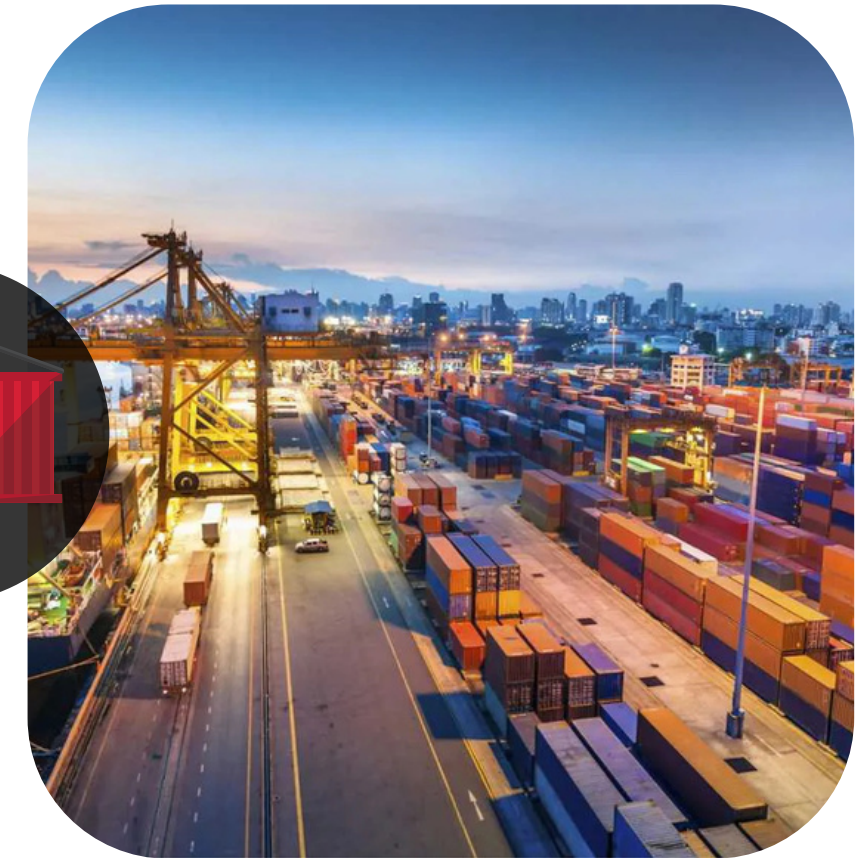

Storage and Refrigeration

Our products are stored in cold storage under the most appropriate conditions before shipment. In this way, we always guarantee quality by keeping the freshness of our products at the highest level

Customs Clearance

We complete customs procedures, which are an important step in our export process, quickly and smoothly. All relevant documents are prepared meticulously and the process is managed by our expert team

Transportation and Logistics

We choose the most appropriate transportation methods to deliver our products to you as soon as possible. Thanks to refrigerated containers and our professional logistics partners, our products maintain their first-day freshness

LEMON

Lemon which is a type of citrus, is a plant that has survived to the present day as a result of hybrid formation. Lemon is not a purebred tree species, it is formed by the hybridization of orange and citron, and is among the plants with its own characteristics. The main feature of lemon is that it contains citric acid and 2.2 pH, by leaving a sour taste on the palate

VARITIES
